

नेपाल स्काउट  
NEPAL SCOUTS

## Operational Context

Nepal promulgated its new constitution in 2015 in a peaceful process that restructured the country as a federal democratic republic, creating an excellent opportunity to achieve economic growth, poverty reduction and pursue the 2030 Agenda. However, the COVID-19 pandemic and subsequent nationwide lockdowns have pushed people back below the poverty line and reversed some of the economic and developmental gains made in the previous decades.

In December 2022, Pushpa Kamal Dahal was appointed Nepal's Prime Minister for the third time, leading a coalition government. Currently, Key issues facing by Government, is to manage coalition government, other than this the new government has to focus on issues relating to the country's economy, foreign policy and environment. The absence of Youth engagement, dealing with the slew of societal issues including the Gender-based Violence, underage marriage and fail to strengthening the economy is also major challenges facing by Nepal. Nepal Scout is currently in its first year of the current National Strategic Plan 2022-2032, addressing Nepal Scouts vision 2032 membership growth by 700,000. Nepal Scouts has been operating in Nepal since 1952 AD to educate young people by supporting their Physical, Intellectual, Social, Spiritual and Emotional development so that they may become responsible citizens with useful skills to benefit society.
